EXPERIENCE

IEEE STUDENT BRANCH | FULL-STACK DEVELOPER

Sept 2020 – Present | VSSUT, Burla

- Facilitated the club's shift from hardware innovations to more software innovations, keeping in mind the upward trend of digitisation in the world.
- Worked with other members of the club to create a number of innovative projects for example we convert a quick quiz into a web-app in the occasion of IEEE Day.
- Contributed to the developing and hosting of the club's official website as the front-end developer.

VIBRANZ (OFFICIAL DANCE CLUB) |

Nov 2019 – present | VSSUT Burla

- A journey from a Participant to a Choreographer, boosts up my confidence and reduce my stage fear.
- Volunteered to teach various dance forms as well as keep learning from them.

PROJECTS

LOVE-ANIMAL | A CROSS-PLATFORM APP

June 2020 – Sept 2020 ([Link: LoveAnimal](#))

- As one of the lead developers, created the User Interface for this app and also contributed in the responsiveness of UI using bootstrap.
- Love Animal allows multiple users to provide information regarding the stray animals around them and based on their information the admin provide betterment for the animals either by providing shelter to those via NGOs.

LIBRARY APP | A WEB APP WHERE YOU CAN LOCATE VARIOUS BOOKS

Aug 2021 ([Link: Library App](#))

- Web app created using React Js as the Frontend and Firebase Cloud as the backend.
- Here user can locate any BOOKS which are available or not as per his/her convenience and Netlify is used to host this Web-app.

CHROME EXTENSION |

April 2020

- Built an extension called Dad's Joke which just help the user to cure the boredom as well a Budget Manager helps to track your expenses.
- Used simple html, css, javascript and json to manifest the extension.
